

Self service shop

Self – Service Store

Welcome to the revolutionary world of Unmanned Service Stores, where cutting-edge technology meets sustainability. Our stores offer a seamless shopping experience, combining convenience with a commitment to a greener planet.

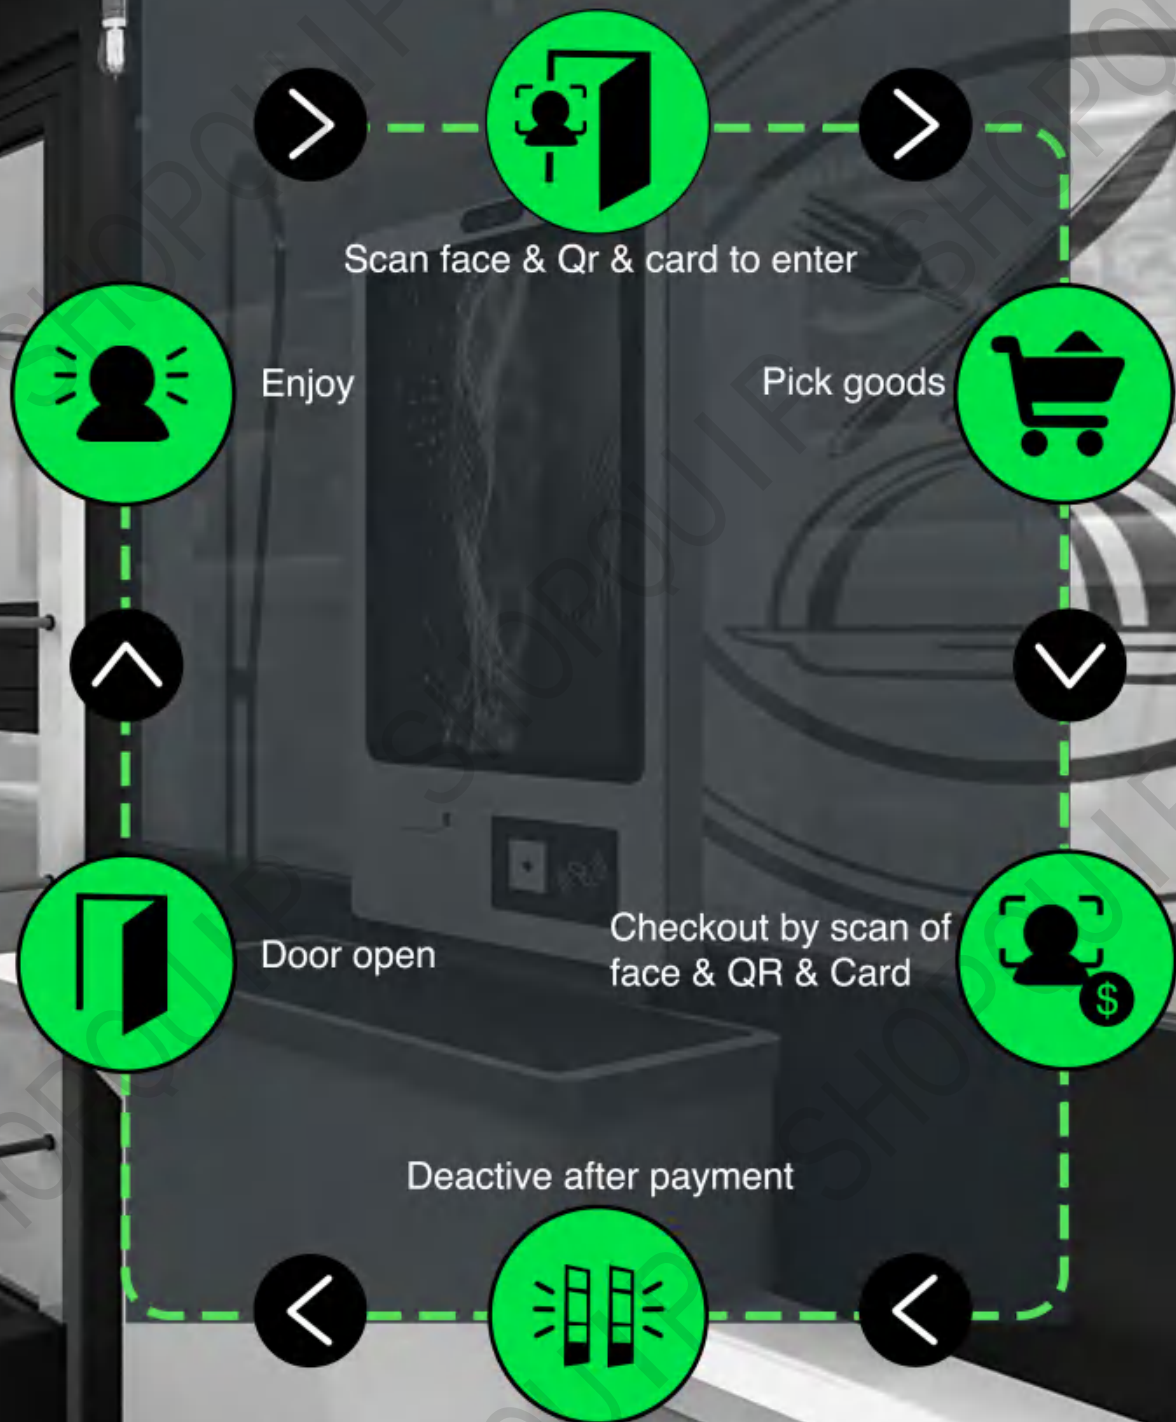

Our stores are equipped with state-of-the-art photovoltaic solar panels. By utilizing solar energy, we ensure that our operations are not only efficient but also environmentally friendly.

We are dedicated to promoting green technology. From energy-efficient lighting to smart temperature controls, every aspect of our store design is focused on reducing environmental impact. Our commitment to green technology ensures that we are contributing to a healthier planet for future generations.

Our Unmanned Service Stores are designed for easy build-up in various locations, including scenic spots, gas stations, and car parks. We offer different sizes to meet the specific requirements of our customers.

Whether you need a compact store for a busy urban area or a larger store for a tourist destination, we have the perfect solution for you.

Buying Experience

Container Dimension

The Quality of Our Shipping Containers for Self-Service Stores

At SHX ShopQuip, we take pride in the quality of our shipping containers, which we use for our Self-Service Stores. These containers are built to meet the highest standards of durability and safety, ensuring that our stores operate optimally, no matter where they are located around the world.

These dimensions ensure that we can offer flexible and customized solutions to suit various needs and space requirements.

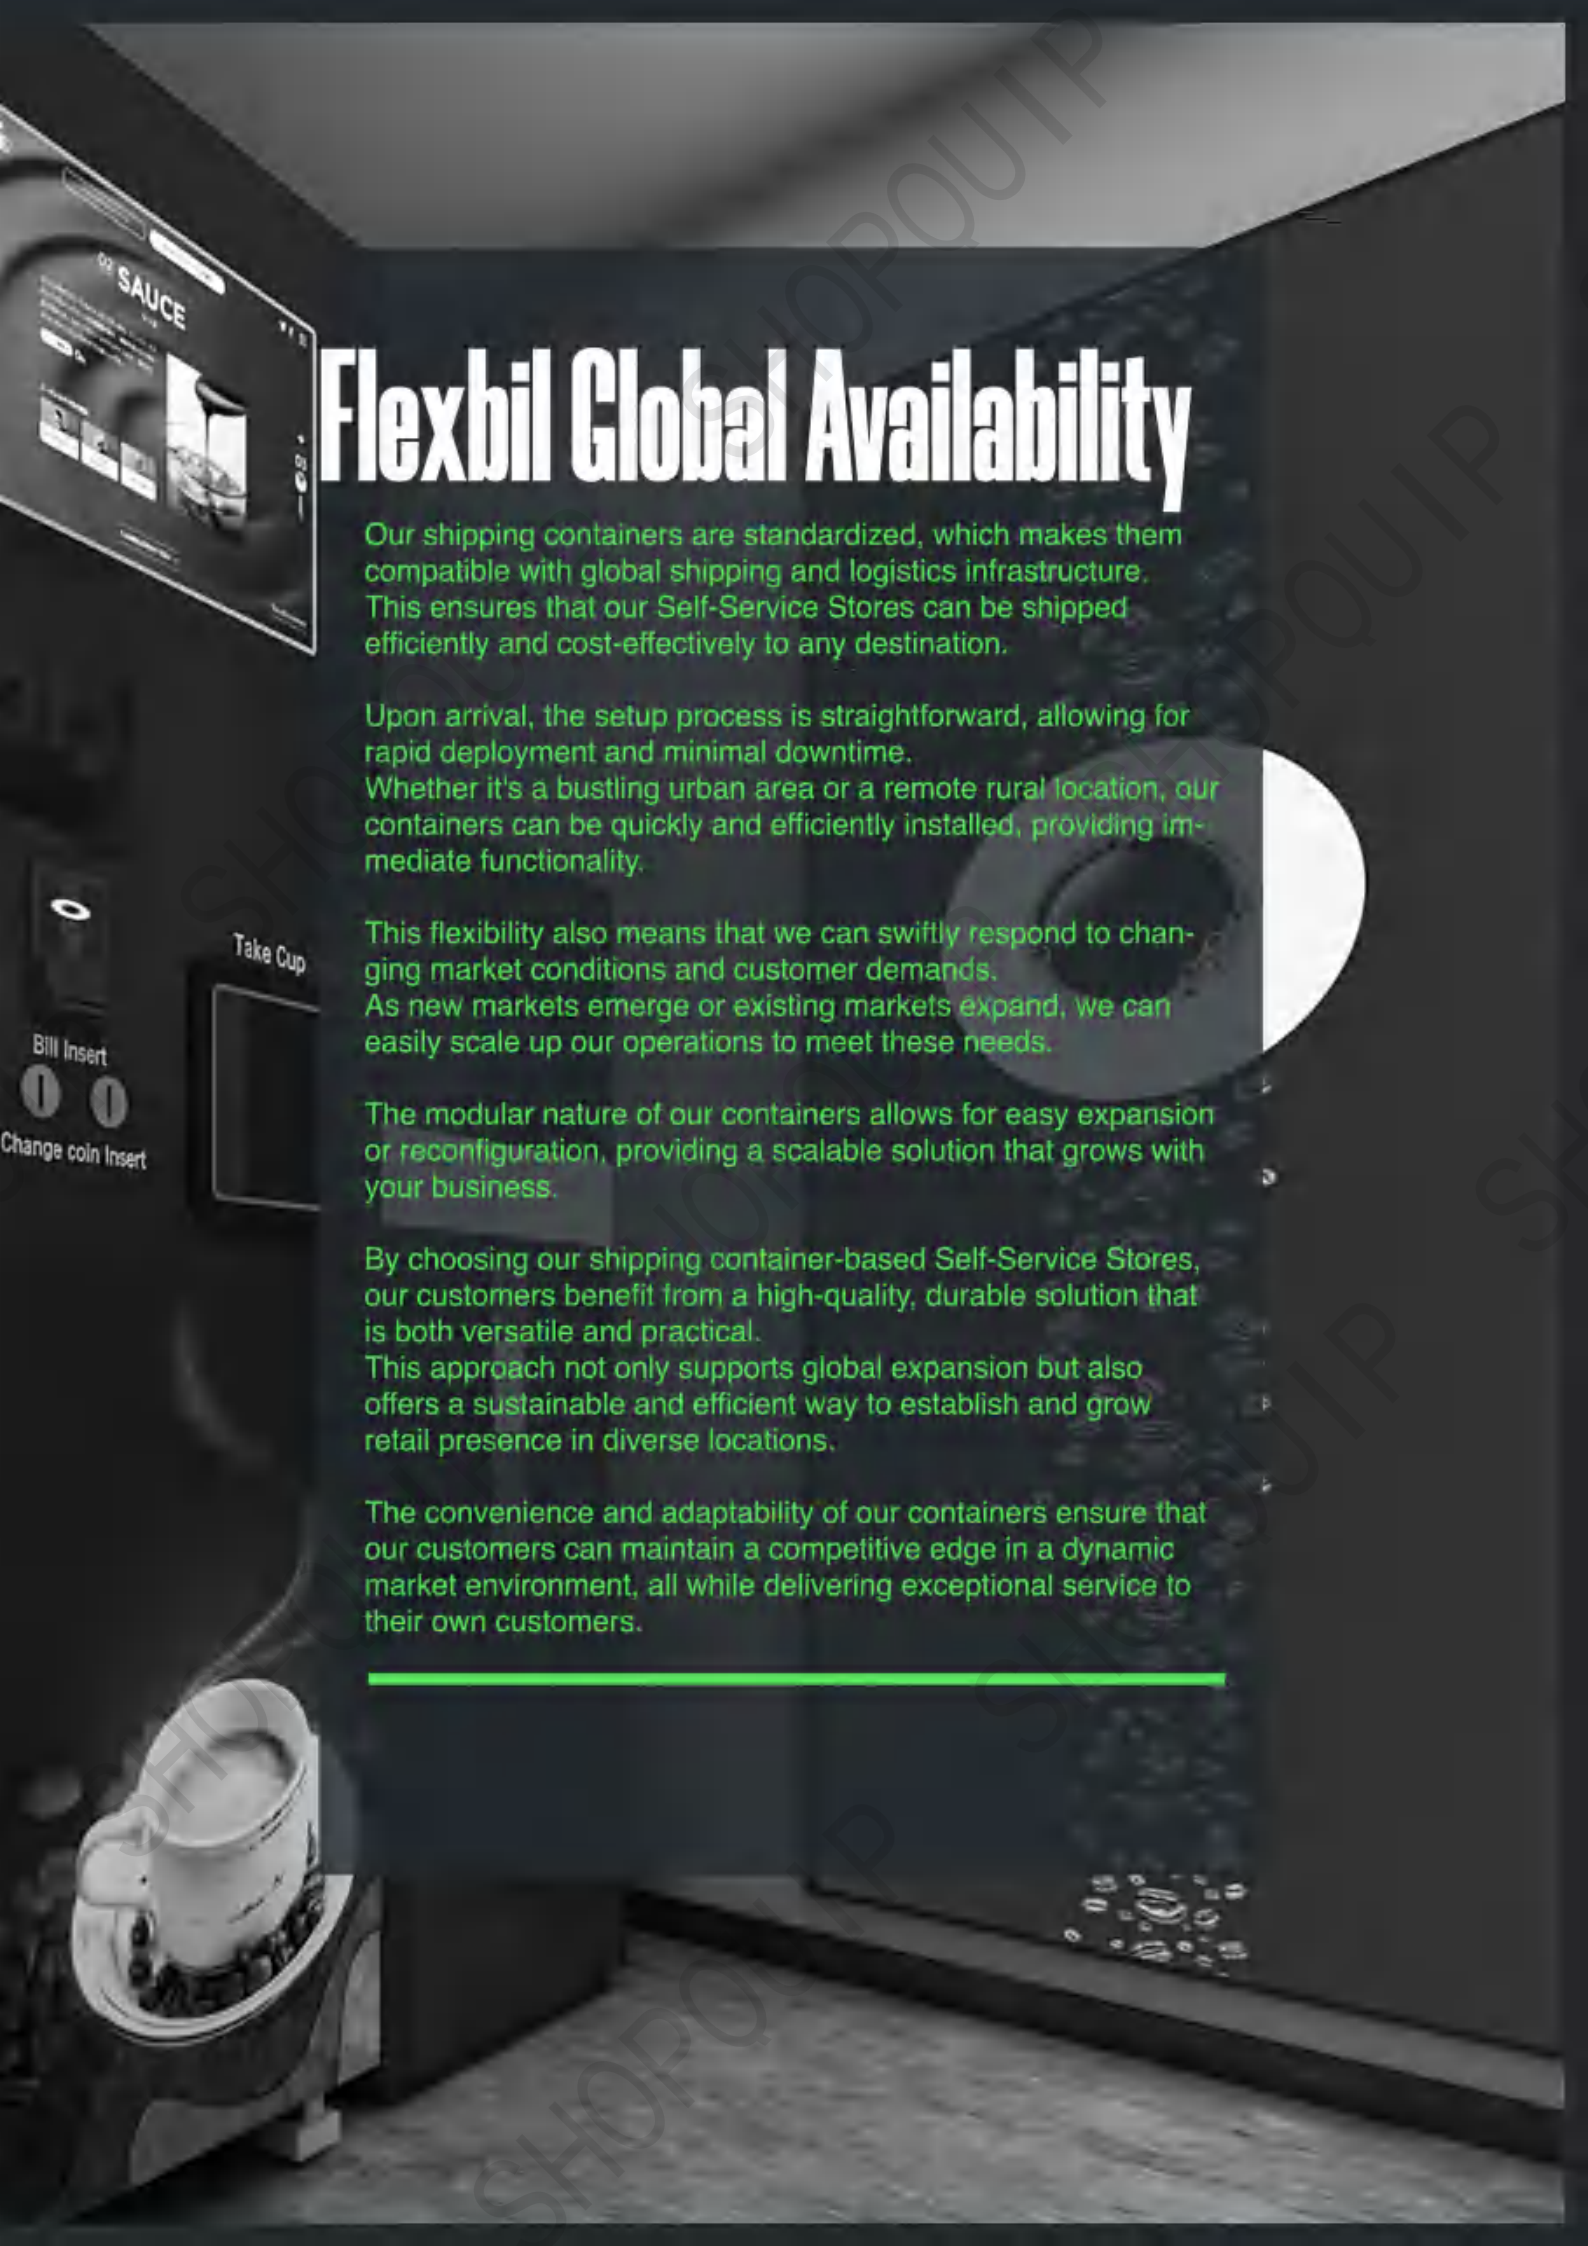

Shipping Container Dimensions

Our shipping containers come in the following dimensions:

Shipping Container Dimensions

Our shipping containers come in the following dimensions:

Standard design		20 ft. container (Global)	40 ft. container (Global)
External dimension	L	6.058m	12.192m
	W	2.438m	2.438m
	H	2.591m	2.519m / 2.896m
Internal dimension	L	5.758m	12.032m
	W	2.352m	2.352m

Flexbil Global Availability

Our shipping containers are standardized, which makes them compatible with global shipping and logistics infrastructure. This ensures that our Self-Service Stores can be shipped efficiently and cost-effectively to any destination.

Upon arrival, the setup process is straightforward, allowing for rapid deployment and minimal downtime. Whether it's a bustling urban area or a remote rural location, our containers can be quickly and efficiently installed, providing immediate functionality.

This flexibility also means that we can swiftly respond to changing market conditions and customer demands. As new markets emerge or existing markets expand, we can easily scale up our operations to meet these needs.

The modular nature of our containers allows for easy expansion or reconfiguration, providing a scalable solution that grows with your business.

By choosing our shipping container-based Self-Service Stores, our customers benefit from a high-quality, durable solution that is both versatile and practical. This approach not only supports global expansion but also offers a sustainable and efficient way to establish and grow retail presence in diverse locations.

The convenience and adaptability of our containers ensure that our customers can maintain a competitive edge in a dynamic market environment, all while delivering exceptional service to their own customers.

Unmanned Coffee store

COFFEE SHOP

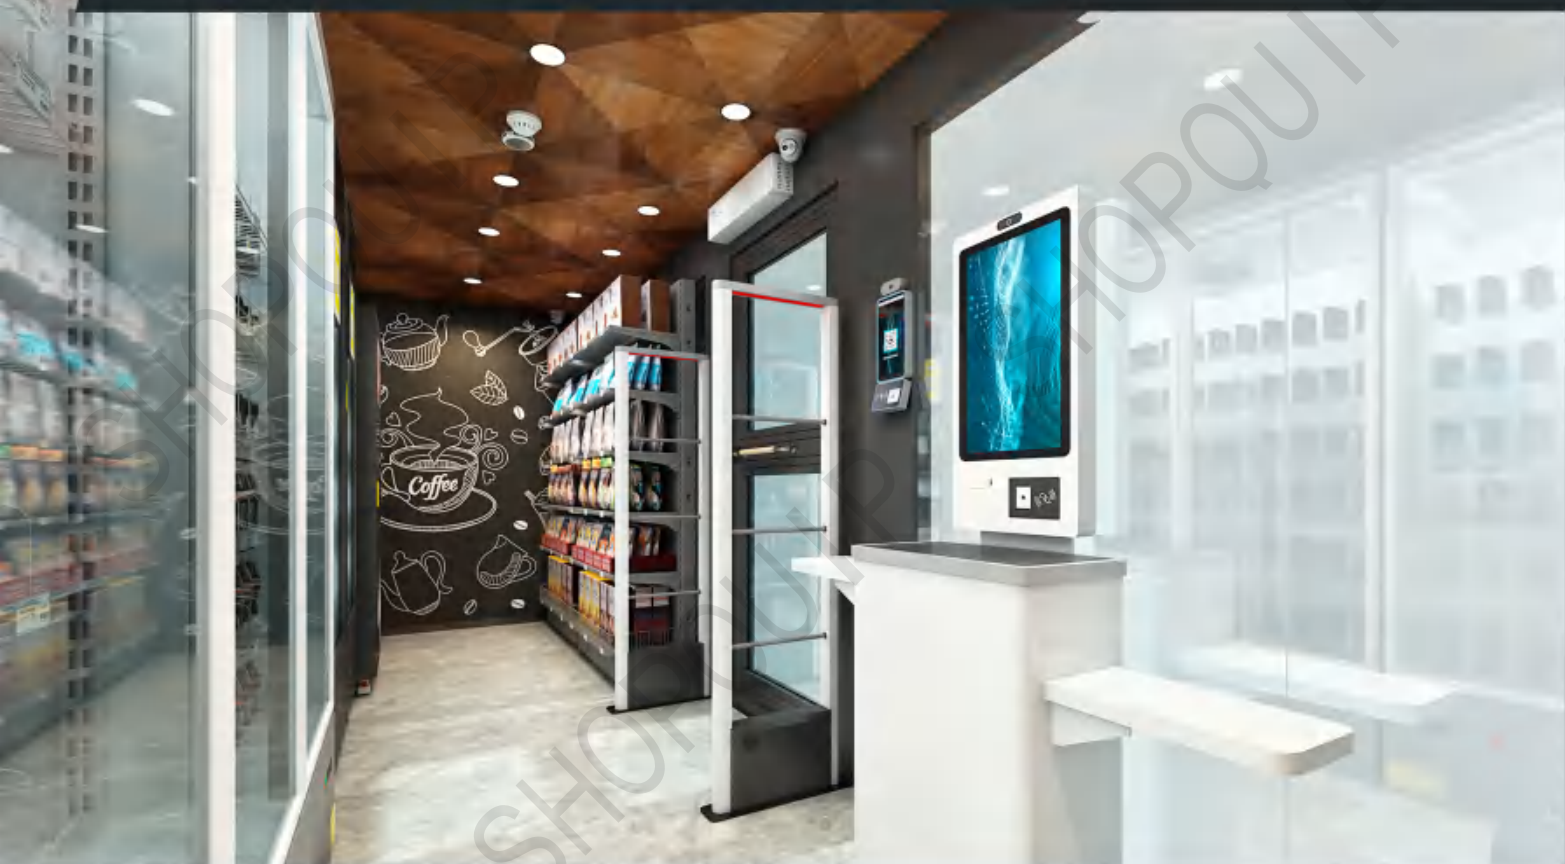

Experience a simple and pleasant shopping experience with our smart self-service store:

1. Scan the QR code at the entrance to enter the store.
2. Grab a cup of coffee from our advanced coffee maker. There are different flavors to choose from, so you can pick your favorite.
3. The coffee maker acts as a vendor, so you need to pay via MobilePay and then pick up your coffee.
4. Explore our selection of snacks like chocolate and other treats, which you can pick before leaving the store.
5. Self-checkout: When you're ready to pay, you can use MobilePay to check out on your own.
6. After payment, place your items on the table to deactivate the alarm system. A receipt will be printed.
7. Leave the store effortlessly through the exit without triggering any alarms.

Our store is designed to provide you with a quick and hassle-free shopping experience, so you can enjoy your purchases with ease.
