CHECKOUT COUNTER SERIES

Cash discharges for the consumer trade

Cash registers for the supermarket are specially developed for the Nordic market.

Both current laws, regulations, and recommendations have been taken into account to ensure the most ergonomic workplace and function possible.

The checkout counters can be delivered in a variety of variants to suit stores of all sizes.

The wide range of accessories allows each disk to be customized to meet all wishes.

Examples of accessories include: Preparing the cash handling systems available on the market, scales with cassette or motorized belt scales, multicustomer function, etc.

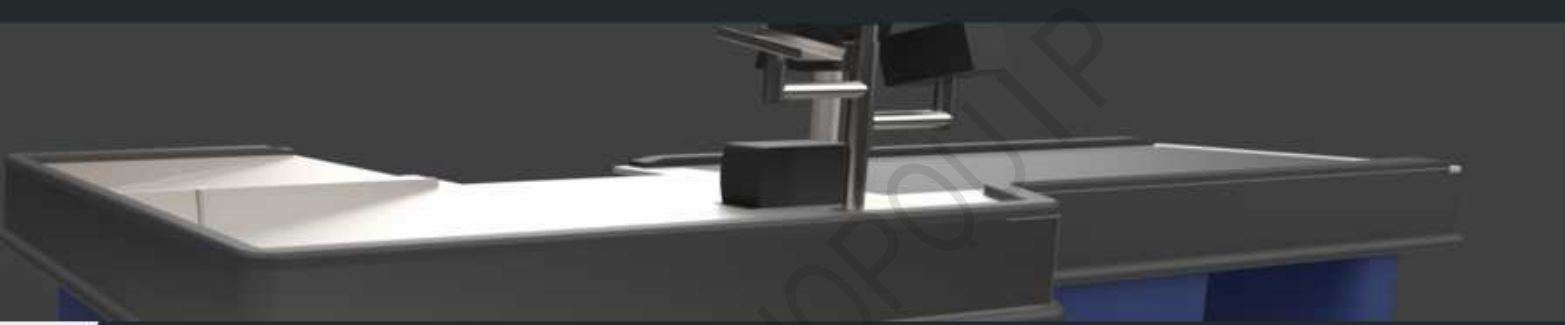

Building and garden shop cases

We also have a wide range of counters specially adapted for Cash & Carry, construction, and garden trade.

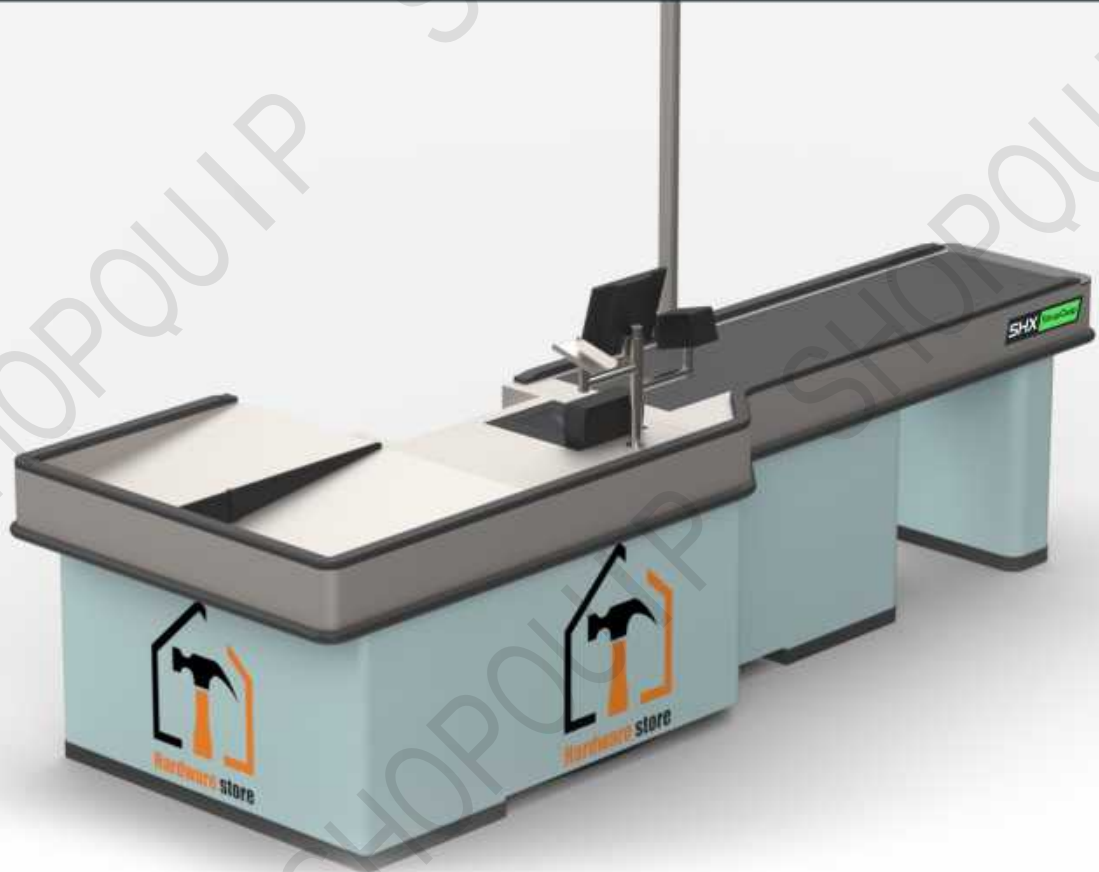

These counters are used by several of the leading chains in Europe.

Of course, there is also a wide range of equipment and accessories here to ensure that all wishes are fulfilled.

Contact us for more information on our various cash counter programs.
